CAREER OBJECTIVE

Aspiring Software Engineer with hands-on experience in Python, Django, Artificial Intelligence, and full-stack web development. Skilled in building AI-powered and data-driven applications through academic projects and internships. Seeking an entry-level Software Engineering role where I can contribute to innovative products, solve real-world problems, and continuously enhance my technical expertise.

EDUCATION

Vidya Academy of Science and Technology

2023 – 2027

KTU University

- B.Tech in Computer Science and Engineering
- CGPA: 8.35 (Up to 6th sem)

St. Clare's C.G.H.S.S Thrissur

2021 – 2023

- Higher Secondary Education (Class XII)
- Bio Science | 96.58%

INTERNSHIPS

ENTECHZ INNOVATIONS – Python Django Web Development

17 JUN 2026 – 30 JUN 2026

- Developed EV Chain, a Django-based Electric Vehicle Charging Center Management System with role-based access for Admin, Users, and Charging Center operators.
- Implemented booking management, complaint & feedback modules, approval workflows, database integration, and responsive user interfaces using Python, Django, SQLite/MySQL, HTML, CSS, Bootstrap, and JavaScript

INFOSYS – Virtual Internship on Artificial Intelligence

24 NOV 2025 – 30 JAN 2026

- Developed InstruNet AI : CNN – Based Music Instrument Recognition.
- Gained exposure to AI fundamentals, machine learning concepts, and industry practices.

PROJECTS

Silent Emergency Communicator | Flutter, Dart, GPS, SMS Integration

- Developed an accessibility-focused emergency communication application for deaf, speech-impaired, and non-verbal users.
- Implemented Auto SOS, GPS location sharing, SMS alerts, emergency contact management, and alert history tracking.

Doom Scroll : AI-Powered Educational Content Discovery Platform

- Developed an AI application that transforms Wikipedia articles into concise insight cards using LLMs, text chunking, and knowledge retrieval.
- Tech Stack: Python, Groq API, Wikipedia API, Gradio.

College ERP System | Django, Django REST Framework, HTML, CSS, JavaScript, Bootstrap, SQLite

- Developed a full-stack college ERP system for attendance, marks, and academic record management.
- Implemented role-based authentication, REST APIs, personalized dashboards, and attendance/marks request management.

NutriAgent – AI-Powered Nutrition Assistant | Python, Flask, IBM Watsonx.ai, IBM Cloud, HTML, CSS, Bootstrap

- Developed an AI-powered nutrition assistant that provides personalized meal plans, nutrition guidance, BMI, and TDEE calculations.
- Integrated IBM Watsonx.ai for conversational AI and implemented responsive dashboards, family profiles, and Indian meal planning.

EV Chain – Electric Vehicle Charging Center Management System | Python, Django, SQLite/MySQL, HTML, CSS, Bootstrap 5, JavaScript

- Developed a full-stack EV charging management system with role-based dashboards for Admin, Users, and Charging Center operators.
- Implemented booking workflows, charging center approvals, complaint handling, feedback management, and database integration using Django ORM.

InstruNet AI – CNN-Based Music Instrument Recognition | Python, TensorFlow/Keras, Librosa, NumPy

- Developed a CNN-based music instrument recognition system using Mel-spectrograms for audio feature extraction and classification.
- Trained deep learning models to identify musical instruments such as piano, guitar, drums, violin, and bass.

CERTIFICATIONS

- | | | |
|--|---|--|
| • NPTEL – Database Management System | • Infosys – Prompt Engineering | • Infosys – Introduction to Natural Language |
| • IBM SkillsBuild – Getting Started with Artificial Intelligence | • Infosys – Introduction to Deep Learning | • IIT Spoken Tutorial – Python 3.4.3 |
| • Infosys – Artificial Intelligence Primer | • Infosys – Computer Vision 101 | • IIT Spoken Tutorial – PHP and MySQL |
| • Infosys – Principles of Generative AI | | |

ACHIEVEMENTS & ACTIVITIES

- Completed the 3-day IBM SkillsBuild Generative AI Bootcamp conducted by Edunet Foundation.
- Presented a technical paper at FISAT, showcasing research and presentation skills.
- Attended ICSET 2026 and completed the hands-on workshop "Agentic AI Building Blocks using Amazon Bedrock" organized by ICT Academy of Kerala in association with Amazon Web Services (AWS).
- Participated in the Young Innovators Program (YIP), SMART INDIA HACKATHON (SIH),STRIDE Designathon
- Secured 3rd Prize in the Paper Presentation Competition at AION 2024 for presenting on the topic "Viksit Bharat".
- Won 1st Prize in Group Song and 2nd Prize in Hindi Story Writing at the College Arts Fest (March 2025).

TECHNICAL SKILLS

- | | | |
|---|---|--|
| • Programming Languages: C, Java, Python | • AI/ML: Machine Learning (Fundamentals), LLM(Fundamentals) | • Developer Tools: Git, GitHub, Flutter, Google Colab,Visual Studio Code, Android Studio |
| • Web Technologies: HTML, CSS, JavaScript | • Frameworks & Libraries: Django, LangChain (Basics), Pandas, NumPy | |
| • Databases: DBMS concepts, SQL, MySQL | | |
